BONDED FOAM

This is high density rebonded virgin breathable foam, which is free from dustmite, fungus and harmful bacterias.

LATEX FOAM

Keeps you warm during winter and cool during summer. Latex Foam is claimed as the most durable foams providing ultimate comfort and let

BONNEL SPRING

These are passed twice through a constant electronic-ally controlled temperature and heat. Because of that it gives high flexibility and comfort to mattresses

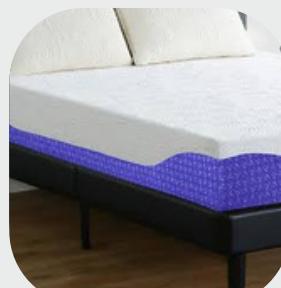

SUPER SOFT PU FOAM

Polyurethane foam is a biodegradable substance. It takes our comfort level at its utmost. It is commonly used in theatre productions manufacturing of mattresses.

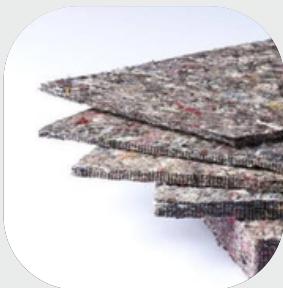

POCKETED SPRING

Pocket Spring system is developed in such a way that, if a weight is placed on a single spring, the other springs, adjacent to it are hardly affected which means zero partner disturbance.

GEL INFUSED MEMORY FOAM

Gel infused Memory Foam to help lower the temperature of the body heat and distribute the weights evenly. It gives maximum comfort and back support to our body.

TURKISH FELT

Turkish thermos bonded felt goes into every mattress, ensures the best comfort and longlasting life of mattresses. It is specially used in the manu-facturing of spring mattresses.

MEMORY FOAM

Memory Foam help stop the body relax during freely float on the Mattress and improving blood circulation through pressure management and also adjust the body temperature

MICRO/NANO POCKETED SPRING

It is durable and have the uniform seat surface. It helps to distribute the body weight evenly. It is highly elastic and hence gives a comfort feel while sleep

COOLING FABRIC

It gives the Cooling effect to the mattress. The use of Cooling fabric with latest fabric technologies gives you a blissful sleep.
